

Industrial Boiler Emissions Monitoring Webinar June 29-30, 2021

Learn More about the Emission Monitoring and Reporting Requirements for Industrial Boilers

Industrial boilers provide heat and steam for a wide variety of industrial processes and are an integral part of many facilities. These boilers are subject to emissions monitoring, testing, and reporting requirements under EPA's 40 CFR Part 60 performance standards but also under the hazardous air pollutant (HAP) standards in 40 CFR Part 63. The limits and associated continuous emissions monitoring (CEM) and reporting requirements vary depending on the size of the units, fuels burned and other factors. Some of the rules include various options that may be used to demonstrate compliance, which may include different testing or QA/QC obligations as well as notification and reporting requirements that need to be met on an on-going basis.

Agora Environmental Consulting is conducting a two-day webinar to help you understand the monitoring options for industrial boilers and help you ensure that you are meeting the regulatory requirements. Designed both for environmental personnel and the instrument technicians that maintain the monitoring equipment, the training will cover the practical implementation details for industrial boilers under Subparts Db and Dc of Part 60 and Subparts DDDDD and JJJJJ of Part 63. Topics will include:

- Applicability of Part 60 and Part 63 Rules
- Emission Limits and Work Practice Standards
- Monitoring and Compliance Testing Options
- Recordkeeping and Reporting Requirements
- Equipment Maintenance and QA/QC
- Fuel Sampling and Analysis Requirements
- Boiler Tune-up Requirements
- CEMS Certification and RATA Testing
- Site Specific Monitoring and QA Plans
- Regulatory Updates

This training will be offered as an on-line webinar on June 29-30, 2021 from 9:00 am - 3:00 pm (Eastern Time). The webinar format will provide the opportunity for live questions and discussion. The cost to participate in the Industrial Boiler Emissions Monitoring Webinar is \$500 and includes the webinar and a copy of the presentation materials (in PDF format).

Industrial Boiler Emissions Monitoring Webinar Registration Form

Mr/Ms Name _____ Company _____
Address _____ City _____ State ____ Zip _____
Telephone _____ Email _____

Training Program Fee.....\$500

**Check Payments: Please Mail Completed Registration Form with Check Payable to:
Agora Environmental Consulting, 4000 Blue Ridge Road, Suite 160, Raleigh, NC 27612**

**Credit Cards: Register and Pay Online or Scan Completed Registration Form and Send to pierce@agoraenv.com
and Call Stacey Pierce at Agora (919) 791-3120 with Your Credit Card Information.**
